

XGB Series | Micro PLC

LSIS introduces its most compact and high performance PLC, XGB series. The compactness, high performance, easiness & convenience and functionality are three important characteristics of the XGB PLC.

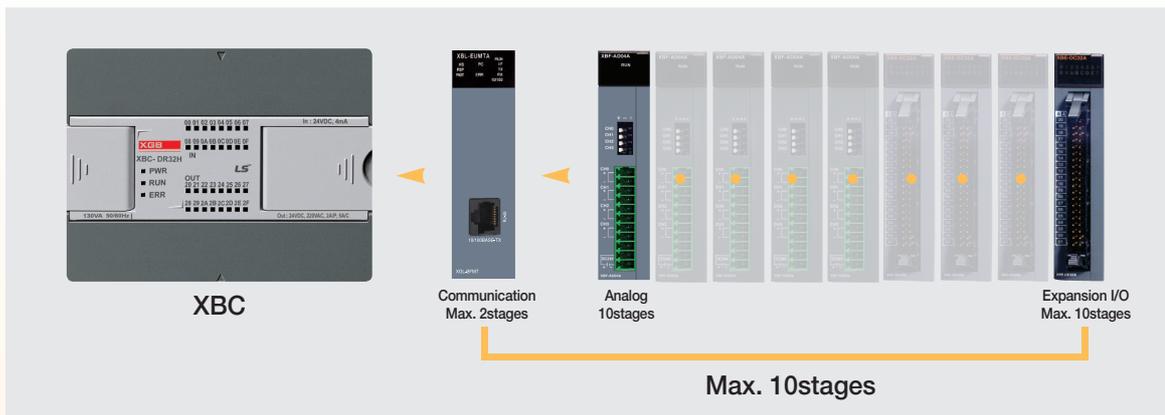

Its compactness ensures that it occupied less space in the equipment and its diverse expandability guarantees flexibility for needs. And its various built-in functions enable the cost-effective PLC system. This controller is particularly suitable for performing small-to-medium performance automation tasks.
